Maximum Flexibility

Thank you for buying a SUNS Luxe Gazebo! We hope you will enjoy your terrace covering as much as we do. Good to know: Because of its smart modular design, the Luxe Gazebo is endlessly extendable in the length.

This is how it works

SUNS Luxe Gazebo is available in several models with standard sizes . You can both extend to the side or in the length of the Gazebo.
This modular approach creates a range of possibilities in gazebo sizes.
Enjoy!

Attention

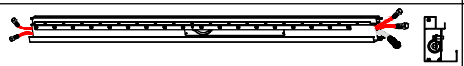

For a first-time-right construction of SUNS Luxe Gazebo: please read carefully all the instruction manuals (of the gazebo, extension set and side extension set) before assembling your gazebo. It will save you hassle and time.

instrucciones de montaje

STEP 17

Please use the remote control to control the LED light to check whether the LED light function is normal .
Please use the remote control to control the motor to confirm whether the linkage can move forward and backward like picture① and②
If all work properly, please move the linkage to the position show in picture③and then disconnect the power plug and continue with the following assembly steps.
If the light does not work and the linkage cannot move ,the code alignment may fail. If the code alignment is successfully , but some functions still cannot work, check whether the corresponding circuit connector is connected correctly.If the circuit is connected normally, it still cannot work normally,please contact our service department

Channel switch button

Function buttons

These 4 buttons are used for motorized roller shutters.(sold separately)

The channel switiching buttons can be paired with different gazebos if you have purchased more than one

Functions are explained on the previous pages
If you want to use a gazebo paired with the channel 2 button, you must press ② before using the function buttons

WARNING
1) Do not ingest battery, Chemical Burn Hazard.
2) This product contains a button cell battery. If the button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.
3) Keep new and used batteries away from children. If the battery compartment doesn't close securely, stop using the product and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

WARNING

1)The drive shall be disconnected from its power source during cleaning, maintenance and when replacing parts.
WARNING: Can't change the wiring and procedures of the product without the permission of the manufacturer or distributor.

2)It is not recommended to install in windy areas or areas with frequent power outages.

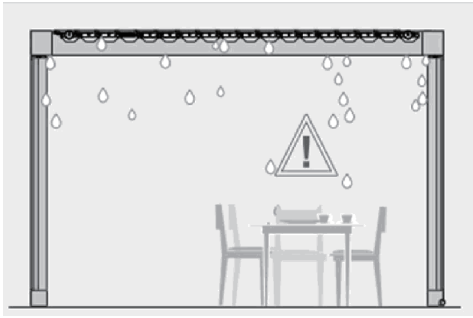

3)This appliance can be used by children aged from 8 years and above. If they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

Children shall not be near the appliance during the installation phase. Do not allow children to play with fixed controls. Keep remote controls away from children;
Frequently examine the installation for imbalance and signs of wear or damage to cables;
-Do not use if repair or adjustment is necessary;
-Do not operate when maintenance, such as window cleaning, is being carried out in the vicinity.
-Disconnect the drive from the supply or switch off the automatic controls when maintenance, such as window cleaning, is being carried out in the vicinity.

WARNING: Important safety instructions. Follow all instructions since incorrect installation can lead to severe injury.

WARNING

Although the louvred roof system is designed as a rain protection system, it is not comparable with a closed conservatory system. Utensils used under the louvred roof must be suitable for outdoor use!
- Dripping rain and condensation may form on the undersides of louvres, frame profiles and posts!
- After a rain shower, water standing on the louvres can run of onto people and objects when they are opened!
- In case of larger quantities of water, the gutter may overflow.
- Soiled rainwater drains no longer drain even small amounts of rainwater. Rainwater then runs into the interior of the system.
- Resistance to wind loads is class 6.
