Maximum Flexibility

Thank you for buying a SUNS Luxe Gazebo! We hope you will enjoy your terrace covering as much as we do. Good to know: Because of its smart modular design, the Luxe Gazebo is endlessly extendable in the length.

This is how it works

SUNS Luxe Gazebo is available in several models with standard sizes . You can both extend to the side or in the length of the Gazebo.
This modular approach creates a range of possibilities in gazebo sizes.
Enjoy!

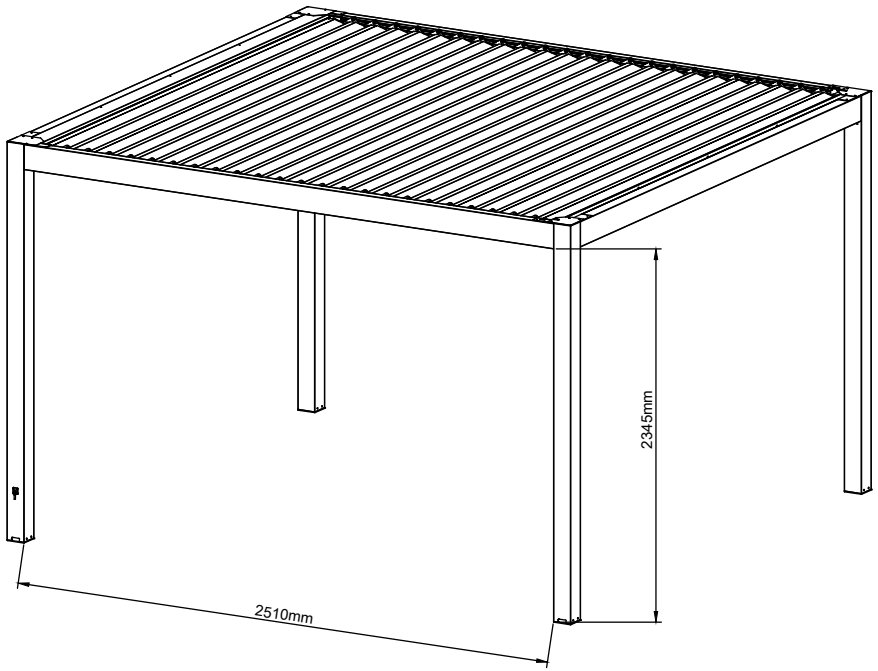

Attention

For a first-time-right construction of SUNS Luxe Gazebo: please read carefully all the instruction manuals (of the gazebo, extension set and side extension set) before assembling your gazebo. It will save you hassle and time.

STEP 10

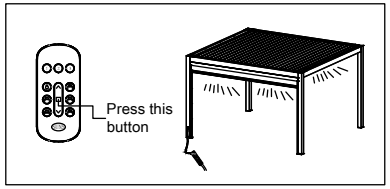

Plug in until the gazebo motor reset is complete

Setup:
Press the button one by one -- Button No. 1→button up → button light → button down, one second interval between each press.
Then if the light is blinking 5times, means it's successively connected.
If no blinking, please repeat the steps and re-setup.

Press the button of curtain which need to be connected(make sure that the button lights up), then press and hold the stop button for a while, when the light blink every 2seconds, can move to next step.

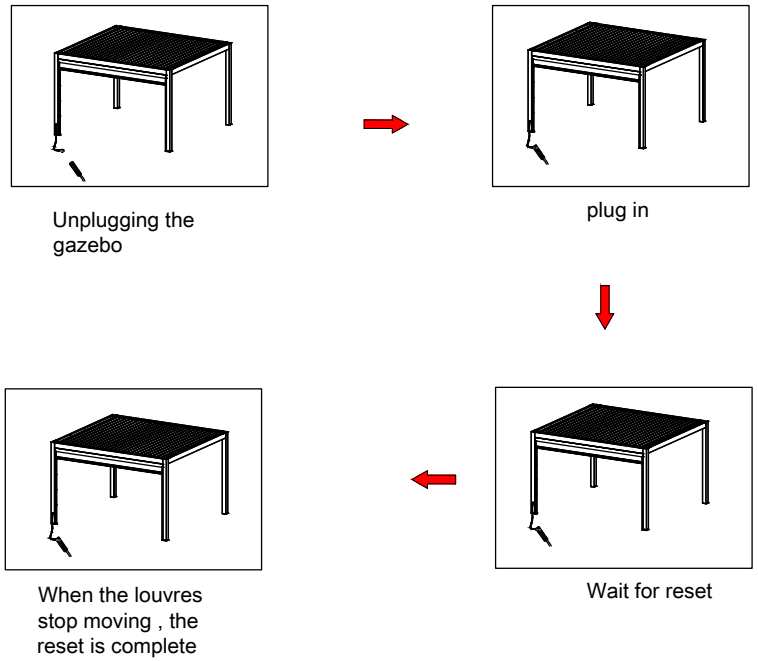

Press and hold the stop button again until the motor shakes once, and the light gradually changes from low light to medium light to high light for a period, then the curtain is setup successfully

Customers can choose the curtain button to setup the position
